

HYDRO MASSAGE BED

HAS-1300 AquaRex

AquaRex represents pure relaxation for body and soul. The massage nozzles jet water against the underside of the silicone mats in even movements using adjustable pressure. The pressure strength, the massage areas and massage times can be controlled individually for application.

The healthful effects of AquaRex come from the unique combination of water, warming and power. The warmth of the water radiates deeply into the body's tissue layers – stimulating the circulation and metabolism, relaxing the muscles and releasing tension. The entire body profits from the carefully controlled power of the water while floating almost weightlessly on the dry silicon mat.

Feature

- Various hydro-treatment has been studied for sports, rehabilitation, and physiotherapy.
- The hydro-treatment is for the patients suffering from arthritis, lumbago.
- Relaxing the stiff muscle and increasing the muscular strength using buoyancy, thermal water, hydraulic pressure without any shock against the muscle.
- Enlarging joint work without danger from injury.
- Suitable treatment system for overweight people with a lot of calorie consumption.
- 2-WAY 회전 분사 방식
- 신장에 따라 마사지 부위가 자동 조절되어 정확한 부위의 마사지 실현
- AUTO MODE 동작 시 신체 부위별로 수압을 조절하여 세밀한 운동 마사지 실현
- 다양한 선택 모드 : Auto/상반신/경추/요추/수동
- 모든 작동 상태를 알 수 있는 심플한 디스플레이
- 수동 조작을 통한 특정 부위 집중 마사지

Specifications

Power	AC 220V, 50/60Hz
Power Consumption	3KVA
Safety, Isolation	Class I, Type B
Water Temperature	25~40°C
Max Round Trip Distance	136cm
Program	Auto, Upper body, Cervical, Lumbar, Manual
Timer	Max 60min
Speed	3 Steps
Water Pressure	1.8~3.4kgf/cm ²
Dimension	[Body] 2249x916x522(H)mm / [Control Panel] 224x156x280(H)mm
Weight of Empty device	100Kg

* | External Auto Water Chiller [Optional]
